MILWAUKEE 16:

WEDNESDAY MORNING, MAY 12.

The Pro-Slavery Party.

The "National Democracy," as the News is fond of styling its Leavenworth party, never so clearly magnified their callous and subservient devotion to the interests and woes of the Slave Power, as in the culminating villainy of the Kansas contest. The English version of the Leavenworth swindle is as the Southern journals existingly proclaim, a signal triumph for Slavery. The people of Kansas are told that if they will submit to the Union at once and receive a grant of three and a half millions of acres of Public Lands it recommends them to the indulgence.

And in the same breath they are told that if they reject the Leavenworth Constitution, they shall have no land, and the doors of the Union shall be closed against them for years to come. As a Slave State, says the National Democracy, Kansas may come in with 40,000 inhabitants; but if she insists upon being Free then she must wait till her popular ranches or exceed 100,000 before she can be admitted. And this the News and other Administration organs proclaim to be a fair and equitable settlement of the Kansas question and a full recognition of "Popular Sovereignty."

Indian Trouble Anticipated.

An extract from the Fort Smith Times, published on the Western frontier of Arkansas, brings tidings that the Comanche and other wild tribes of Indians, in the south west, are collecting on the plains, uninfected with hostile designs towards the United States. It is said that they are influenced, or instigated by emulators from Brigham Young, and that the wily Mormon leader hopes, by this means, to create a division, and give the U. S. troops, now in Utah on the march thither, a opportunity, without troubling the Saints. The device is not a bad one, and the Indians, it is quite probable, will fall into the trap thus set for them. We hear, too, from St. Paul that the Indians in Illinois are becoming troublesome; not, indeed, threatening the whites, but fighting amongst themselves, and rendering the presence of the U. S. troops there imperative. This being the case, and nearly all the regular troops at the West being under orders for Utah, it will devolve upon the three Volunteer Regiments about to be raised, to protect the frontier settlements, garrison the outposts and keep peace among the Indians.

So great, however, is the extent of country to be guarded, and so large the number of forts and posts, created by the U. S. troops, to be garrisoned by the volunteers, that it may well be doubted if three regiments will suffice for the service—especially if the Indian troubles should break out into actual hostilities. But there will be no difficulty in procuring additional volunteer regiments, should they be needed, from the Western States; so let that thirteen having already been tendered to the Secretary of War.

It is announced that the three regiments first raised will be mounted and armed with Muskets and pistols, created by the U. S. troops, to be garrisoned by the volunteers, that it may well be doubted if three regiments will suffice for the service—especially if the Indian troubles should break out into actual hostilities. But there will be no difficulty in procuring additional volunteer regiments, should they be needed, from the Western States; so let that thirteen having already been tendered to the Secretary of War.

APPOINTMENTS AND REMOVALS.—We hear that Capt. Lissander has been appointed keeper of the new Light at the Straight Cut. Whether this appointment dispenses that faithful and zealous Light-Keeper, Capt. W. Woodbury, we can not say. It is also reported that Mr. Olson, the efficient Deputy Collector, has been, or is to be guillotined, for some political drolleries.

CONNECTICUT.—The Legislature of this State assembled at New Haven on Wednesday the 5th inst. The senate was organized by the election of the Hon. Edelia Carpenter as President pro tempore, and Isaac H. Bradley, Republican, Clerk, receiving 13 votes to 8 for Frank H. Peck. In the House, Alfred A. Brumbaugh, Representative of Windham County, was chosen speaker, receiving 136 votes to 80 for Richard D. Hubbard, Dem., and 2 scattering. Abner L. Traub, Republican, was chosen Clerk, and William S. Gossle, also Republican, Deputy Clerk. William A. Buckingham, the new Governor, took the usual oath of office and delivered his first message.

Gov. Buckingham states that the expenditures of last year amount to \$27,470. The debt is \$55,000. The one cent school tax brought in a revenue of \$71,400 last year, which is a falling off. The banking institutions of the State receive a large amount of attention in the Message. The number of the banks is 76, and the aggregate capital \$20,618,728. It is considered unsafe to prohibit the circulation of small bills until New York shall have adopted such a policy, but the Governor recommends restrictions upon banking privileges. The Tariff of 1840 is censured, and the Compromise movement is strongly rebuked.

MISCELLANEOUS ACCIDENTS.—The Beaver Dam Cottages relates the particulars of an accident by which a young man, a resident of that city named Nicholas Roth, lost his life. It appears that he and two companions were out duck hunting, two of them in a boat, and the other on shore close by. They were in pursuit of a wounded duck at the time the accident occurred. Roth was in the front of the boat and the other had his back turned towards him, when Roth's gun accidentally discharged, and the poor fellow, uttering the words "Jesus Maria," fell back on the shoulders of his companion, and expired almost instantly.

From the appearance of the wound, it seems Roth was standing up, holding the gun in his left hand, the hand partly over the muzzle, and his face bent over it. The charge passed through his hand, tearing nearly half it away, and then entered his breast, neck and face. One shot, which entered his neck on the right side, the doctors say, was sufficient to cause instant death; while others which entered the eyes, and passed through to the brain, were pronounced equally fatal. So sudden did death follow the discharge of the gun, that when the third party, who was not over 100 rods distant, came up, the man was no more.

Roth was a young man, only 22 years of age, and leaves a young wife, to whom he had been married scarcely a year. He was a cooper by trade, and is said by those who knew him, to have been stoutly, honest, and industrious.

U. S. STEAMER MICHIGAN.—The Steamer was at Detroit, Saturday, on her way to the Upper Lakes. The following is a list of her officers:

Captain—Joseph Lannan.  
Lieutenants—James H. Spotts, R. B. Lowry, James E. Jones, James W. Stark.

Purser—James F. Hart.  
Enginero—Alfred M. Jordan, T. C. Loring, George L. Barry, Captain—James D'Neen, Fred. Hall.

Pilot—William Illston, Alexander H. Barnes.

Her full complement of officers and crew consists of eighty men.

FATAL RAILROAD ACCIDENT.—Mr. William Turnbull, an old citizen of Biglerville, in Adams County, was run over and killed by a train of the Milwaukee R. R., near that place, on the 4th inst. He was riding on his horseback, and is attempting to cross the R. R. track was struck by the locomotive.
